

VENEDIA

→ IT Celestia è una poltroncina in filo metallico pensata per gli spazi outdoor di bar e ristoranti, nata dalla volontà di trovare un punto d'incontro tra contemporaneità e classicità. È caratterizzata da due ampie volute che, partendo dalla parte inferiore dello schienale, arrivano a descrivere i braccioli. Il filo metallico acquista così morbidezza ed eleganza. La sedia prende il nome dalla piazza omonima, Campo de la Celestia, uno spiazzo tranquillo dove è possibile respirare la Venezia autentica.

→ EN Celestia is a metal wire armchair designed for the outdoor spaces of bars and restaurants, born from the desire to find a meeting point between contemporaneity and classicism. Its peculiarity lies on two spirals that, starting from the lower part of the backrest, follow along to describe the armrests. The metal wire thus acquires softness and elegance. The chair takes its name from the namesake square "Campo de la Celestia", a tranquil open space where you can feel the authentic Venice.
