

VENEDIA

→ IT Come se stesse fluttuando, il piano poggia elegantemente sulla struttura: Parón è una collezione di tavoli disponibile in diverse basi e finiture. La sospensione del piano rispetto alla struttura dona al tavolo robusto la sua leggerezza, addolcita dagli angoli arrotondati.

La struttura con gambe in legno richiama gli ambienti confortevoli della casa, evidenziandone il ruolo centrale negli ambienti domestici. La struttura in metallo, dal design compatto ed elegante, si presta perfettamente sia ad un arredamento residenziale che contract. Svetta su Venezia El Parón de Casa, il Campanile di San Marco. Robustezza, solidità e maestosità sono le caratteristiche che il tavolo Parón rispecchia, divenendo El Parón delle vostre case.

→ EN Almost as if it were floating, the top lies gracefully on the frame: Parón is a table collection available in different structures and finishes. The separation between the table top and the leg structure is what gives the robust table its light appearance, softened by its round edges. The wooden leg structure recalls the cosy environment of the house, becoming the focal point of the household. The metal frame, with its elegant yet solid design, is perfectly suited for both residential and contract décor. “The master of the house” (el parón de casa) towers over the city of Venice: it is the St Mark’s bell tower. Sturdiness, solidity and majesty are the characteristics that the Parón table replicates, becoming the master (el parón) of your home.
