CAORLINA

Caorlina nasce come barca popolare, multifunzionale ed efficiente.

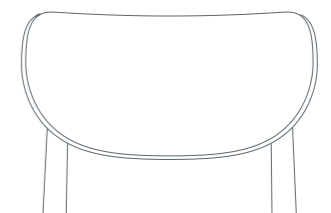

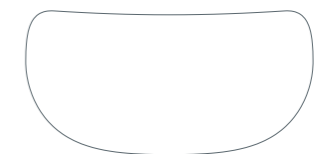

Agile, capiente, simmetrica: una struttura conservata nel tempo.

È proprio la simmetria a determinare il concept riproposto in questa seduta, diventando un elogio all'imbarcazione che collega le isole alla terraferma.

Caorlina was born as a popular, multifunctional and efficient boat.

Agile, spacious, symmetrical: a structure preserved overtime.

It is precisely this symmetry that determines the concept presented in this chair which becomes a tribute to the boat that connects the islands to the mainland.

La sedia in legno, ispirata alle sedute classiche dell'Ottocento con paglia di Vienna, riprende l'artigianalità italiana nella lavorazione del legno in una forma contemporanea.

Le gambe lineari e coniche incontrano la morbidezza dello schienale e del sedile in paglia di Vienna, il quale permette all'utente di personalizzare la propria sedia con le varianti di sedile imbottito o in legno curvato per un'ulteriore flessibilità di finiture e colori.

The wooden chair, inspired by the classical seats of the '800 featuring woven cane, recalls the Italian craftsmanship of woodworking with a contemporary twist.

The linear and conical legs meet the smoothness of the backrest and the woven cane seat, which allows one to customise the chair as he pleases with two other variants, which are the padded upholstered seat or the plywood seat, in order to allow further flexibility of colours and finishes.

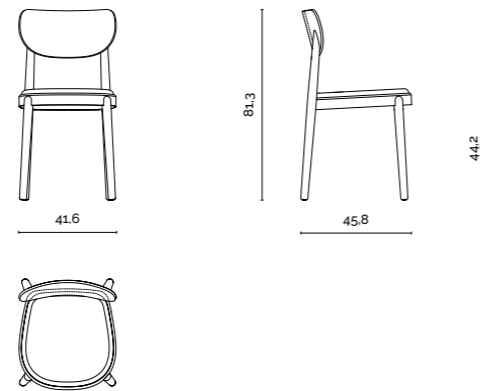

CAORLINA

/ DESIGN VENEDIA STUDIO

Sedia in faggio con schienale in multistrato.
Verniciatura a base acqua, finitura opaca.
Sedile imbottito e rivestito in tessuto, velluto o ecopelle.
Beech chair with plywood backrest.
Water-based varnish, matte finish.
Padded seat upholstered with fabric, velvet or faux leather.
